

Create an employee registration form which accepts the Name, Designation, Email, Mobile and Address.

All fields are mandatory, the domain of email should be *@manipal.edu* and the mobile number should accept exactly 10 digits.

Add three buttons to the form, named it as Submit, Cancel and Reset.

When user submits the form, entered details should be display in a new page. The reset button click should clear all the input fields and focus on Name field. Clicking on cancel button display the appropriate message in a new page.
